

Mobile Gardens Limited

PO Box 31911

Milford

Looking to sell your property?

THINGS TO DO IN YOUR GARDEN DURING LOCKDOWN

Get your lawns lush and green by adding slow release fertilizer or even sowing lawn seed (available at the supermarket while nurseries are closed)

Help your home to feel larger and more open by pruning away any dead branches, particularly focus on plants and trees that block light from entering your home

A fast and effective make-over can be achieved by ordering Dalton's black mulch to spread around plants in your garden

Keep the entire garden looking alive by regularly clear away autumn leaves and dead flower heads

Waterblast paths and driveways

Tanya would be happy to view your property at no charge and suggest ideas for your garden and exterior home staging
